

Responding to Your Questions & Concerns

March 10, 2021

Second Open House Saturday March 6th Drew More Than 30 Residents

SUN CITY, Ariz. (Mar. 10, 2021) – The proposed new location for the WestWing Recycling and Transfer Facility was selected to address concerns about noise, traffic, and odor. Republic Services feels the best way to demonstrate how those concerns are addressed is to have residents see the site for themselves. That's why we have held two open houses. The most recent one was last weekend on March 6th. The first open house in February attracted 60 residents. Those who could not make the first one asked for an additional opportunity, and we were happy to oblige.

Residents saw for themselves how the proposed facility would be sheltered from view thanks to the Loop 303 and the existing WestWing Power Station. The facility would be accessed from the Loop 303, at exit 123, avoiding any homes and neighborhoods, which means no additional truck traffic impacting neighbors. Its proposed remote location is in an existing zoned industrial park. Waste transfer facilities, such as the Republic Services facility in Chandler, operate virtually unnoticed by area neighbors.

Community Cleanup Last Wednesday

During our continued community engagement, we were asked to help clean up a problem that had been challenging Tierra Del Rio. For years the neighboring riverbed has been plagued with illegal dumping, including construction debris.

On March 3rd a team from Republic Services, with help from some heavy equipment, collected and hauled away nearly 12 tons of trash and debris. One of the neighbors let us know that the clean up made a big difference.

We were happy to help. In fact, waste transfer facilities like the one we are proposing can help prevent illegal dumping by providing a convenient location to dispose of bulk trash. Republic Services will be offering nearby residents free bulk trash disposal.

The northwest valley is the only part of Maricopa County without a recycling and transfer facility. In addition to preventing illegal dumping, the WestWing Recycling & Transfer Facility can help preserve recycling by keeping costs down. It can also help keep trash rates low.
